

Write a program to display first 5 numbers with their squares and cubes.

```
Private Sub Command1_Click()
```

```
For i=1 To 5
```

```
    Print "Number: "& i & " | Square: " & i*i & " | Cube: " & i*i*i
```

```
Next
```

```
End Sub
```

Write a program to read 10 integers in an array and display the maximum.

```
Private Sub Command1_Click()  
Dim Arr(10), temp, max As Integer  
For i=0 To 9  
    Arr(i) = InputBox("Enter no: ")  
  
Next  
Max = Arr(0)  
For i=0 To 9  
    IF Arr(i) > max THEN  
        max = Arr(i)  
    END IF  
  
Next  
Print "Maximum: " & max  
End Sub
```
