
Q.1. Answer the following short questions.

(10x3=30)

1. What is ENIAC computer?
2. Write difference between MS excel and MS PowerPoint.
3. What is Window?
4. Write any three uses of computer in education field.
5. What is data bus?
6. Difference between PROM and EPROM.
7. What is serial port?
8. What is OCR?
9. What is SVGA?
10. Write formula of ADDING two columns in MS excel.

(20)

Q.2 Answer the following short questions.

- I. Define RAM. What are different types of RAM?
- II. Define mechanical and electronic data processing.
- III. What is the difference between procedural and non-procedural programming languages?
- IV. What are the uses of super computer?
- V. Define control unit. What is the importance of control unit in data processing?
- VI. What is slide transition?
- VII. What do you mean by slide design?
- VIII. Write down syntax of average formula.
- IX. Define network topology.
- X. Define computer program.

Give answers of the following questions:

UNIVERSITY OF THE PUNJAB

First Semester – 2019

Examination: B.S. 4 Years Program

Roll No.

PAPER: Computer Applications in Business

Course Code: COMP-121/CMP-11019 Part – II

MAX. TIME: 2 Hrs. 45 Min.

MAX. MARKS: 50

ATTEMPT THIS (SUBJECTIVE) ON THE SEPARATE ANSWER SHEET PROVIDED

Q-2 Give short answers of the followings: (20)

- I. What are the basic functions of an operating system?
- II. What is the relationship between hardware and software?
- III. What is domain name? Give examples.
- IV. What are the advantages and disadvantages of "Second Generation of computers"?

- VII. What do you mean by slide design?
- VIII. Write down syntax of average formula.
- IX. Define network topology.
- X. Define computer program.

Give answers of the following questions:

- Q.3 Explain different types of digital computer in detail.
- Q.4 Write down steps to insert charts in MS-Excel.
- Q.5 Define software. What are the different types of System Software and Application Software? Explain with examples.

(30)

- I. What is personal computer? What are different types of personal computer?
- II. What is the difference between application software and system software?
- III. Give two examples of analog computer.
- IV. What are the functions performed by the CU (control unit) during a machine cycle?
- V. Write down steps to insert tabs in MS-WORD.
- VI. How slide animations work in MS-POWERPOINT.
- VII. Enlist at least 5 (five) areas of chart.
- VIII. Define router.
- IX. What is a web browser?
- X. State two uses of internet in education.

Give answers the following questions:

- Q.3** Give examples of following formulas in MS-EXCEL. **(10 marks)**
- (a) count blank (b) average (c) maximum (d) today (e) mixed reference
- Q.4** What is volatile memory? Explain different types of RAM in detail. **(10 marks)**

5. What is data bus?
6. Difference between PROM and EPROM.
7. What is serial port?
8. What is OCR?
9. What is SVGA?
10. Write formula of ADDING two columns in MS excel.

Q.2. Answer the following questions.

(3x10=30)

1. How to apply transitions and background sound on slides in MS power point?
2. What is main memory? Briefly explain about RAM.
3. What are storage devices? Explain about hard disk.

ATTEMPT THIS (SUBJECTIVE) ON THE SEPARATE ANSWER SHEET PROVIDED

Q-2 Give short answers of the followings: (20)

- I. What are the basic functions of an operating system?
- II. What is the relationship between hardware and software?
- III. What is domain name? Give examples.
- IV. What are the advantages and disadvantages of "Second Generation of computers"?

Q-3 Give brief answers of the followings: (30)

- I. Differentiate characteristics of Local Area Network (LAN) with Wide Area Network (WAN).
- II. What is the difference between primary and secondary storage? Explain different primary and secondary storage devices.
- III. How formulas and functions can be used in MS-Excel? Give examples of different formulas by using proper syntax.

- VI. How slide animations work in MS-POWERPOINT.
- VII. Enlist at least 5 (five) areas of chart.
- VIII. Define router.
- IX. What is a web browser?
- X. State two uses of internet in education.

Give answers the following questions:

- Q.3** Give examples of following formulas in MS-EXCEL. **(10 marks)**
- (a) count blank (b) average (c) maximum (d) today (e) mixed reference
- Q.4** What is volatile memory? Explain different types of RAM in detail. **(10 marks)**
- Q.5** What is programming language? Explain different programming languages in detail. **(10 marks)**

Attempt this Paper on Separate Answer Sheet provided.

SUBJECTIVE TYPE

Q.2 Answer the following short questions.

(20 marks)

- I. What is personal computer? What are different types of personal computer?
- II. What is the difference between application software and system software?
- III. Give two examples of analog computer.
- IV. What are the functions performed by the CU (control unit) during a machine cycle?
- V. Write down steps to insert tabs in MS-WORD.
- VI. How slide animations work in MS-POWERPOINT.
- VII. Enlist at least 5 (five) areas of chart.
- VIII. Define router.
- IX. What is a web browser?
- X. State two uses of internet in education.
