Past Paper 2015

Q: 1 BREIF ANSWERS

Q: 1 Write a brief report on the recent terrorist activity took place in Pakistan?

A: 1

To:

The Defense Ministry.

Islamabad.

From: Report writer.

Subject: A report on the recent terrorist activity took place in Pakistan.

Date: May 9th, 2022.

Introduction: I am writing this report to you on the recent terrorist activity took place in Pakistan. This report is based on facts and figures.

Text / Report: I am writing this report to you on the recent terrorist activity took place in Pakistan on 26th April at Karachi city in University of Karachi.

The University of Karachi is an international university. The explosion ripped through a van at a university campus in Karachi on Tuesday 26th April, killing four people. Three teachers from China and a driver had been killed in a suspected suicide bombing. A female suicide bomber was responsible for the attack, the Karachi police said in a statement. CCTV footage shared by the police showed a woman clad in a Burka detonated herself outside the Confucius Institute.

Conclusion: The Baloch Liberation Army (BLA), a militant separatist group from Pakistan's southwestern province of Balochistan, claimed responsibility for the attack, which it said was carried out by a woman suicide bomber. Pakistan's Prime Minister Shahbaz Sharif has condemned the incident.

Suggestions: The Government should review the security arrangements. And the security of educational institutions should be further enhanced. The government should make significant security arrangements not only on the internal but also external routes of university.

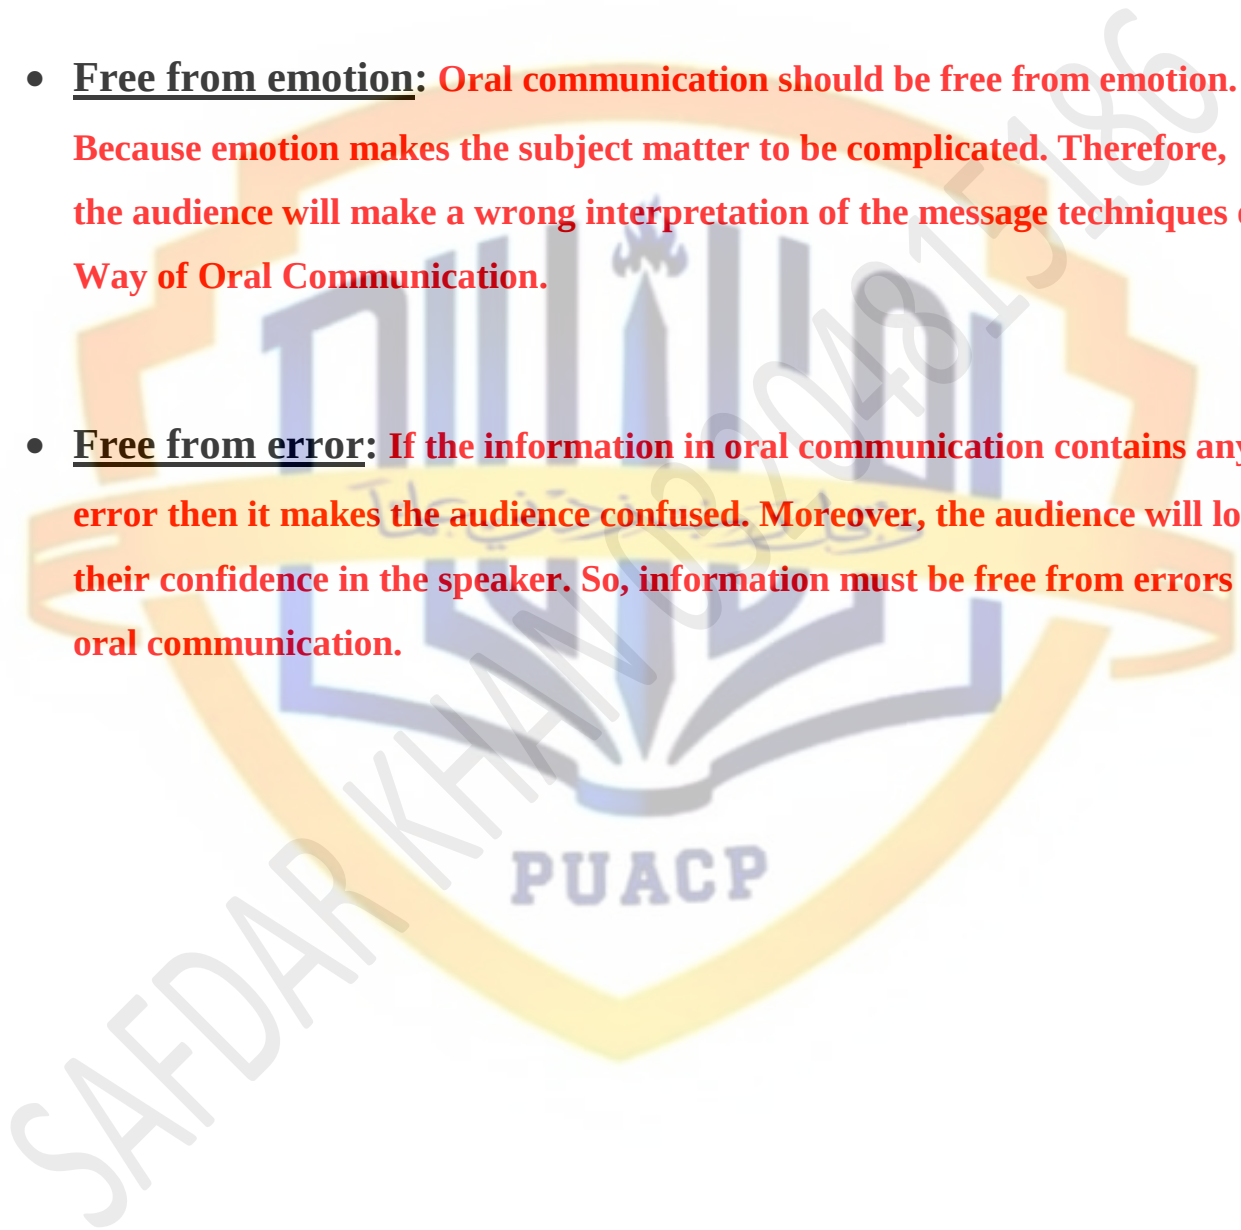

Q: 2 What are the major characteristics of oral-presentation?

A: 2 Followings are the major characteristics of oral-presentation:

- **Pre Planed.**
 - **Certainty.**
 - **Conciseness.**
 - **Attractive presentation.**
 - **Consideration of the Receiver or Audience.**
 - **Neutrality.**
 - **Realistic.**
 - **Patience.**
 - **Free from emotion.**
 - **Free from error.**
-
- **Pre Planed:** Before transmitting any message, the speaker must have a pre-plan to send the message properly to the audience or receiver. Pre-Planned communication is always fruitful.
 - **Certainty:** The speaker must speak properly while communicating with the audience. The subject matter or speech must be certain in oral communication to avoid confusion.

- **Conciseness:** Information should be /Enriched with concrete, logical and relevant data in case of oral communication. The subject matter should also be simple to catch the attention of the audience.
- **Attractive presentation:** The message in oral communication should be presented in a nice tone. The Speaking attitude should be catchy to hold the attention of the receiver.
- **Consideration of the Receiver or Audience:** During oral communication, the qualification, knowledge, experience, and motive should be considered by the speaker. The language should be simple and understandable to the audience.
- **Neutrality:** The audience or receiver should be silent while the speaker is delivering his speech. The audience must analyze and evaluate the message provided and then he should answer properly. The neutrality of the audience sustains oral communications.
- **Realistic:** Unrealistic information or, a message can never hold the attention of the audience. So, a speaker should provide a realistic speech to the audience.

- **Patience**: Patience is the key to the success of ineffective communication. Both the speaker .and the audience must have proper patience while making oral communication.
- **Free from emotion**: Oral communication should be free from emotion. Because emotion makes the subject matter to be complicated. Therefore, the audience will make a wrong interpretation of the message techniques or Way of Oral Communication.
- **Free from error**: If the information in oral communication contains any error then it makes the audience confused. Moreover, the audience will lose their confidence in the speaker. So, information must be free from errors in oral communication.

Q: 3 Write a letter to the editor discussing the problem of broken roads in your area?

A: 3

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jang,

Lahore.

Subject: Discussing the problem of broken roads in your area.

Dear Sir,

The condition of the roads in our locality has become extremely poor. There are many uncovered holes on the road which are dangerous for us citizens.

Last year, there was an underground pipe installation on the road. During that time, due to the roadwork, many holes were developed on the road. However, after the work, the holes were not covered and now they are lying on the roads uncovered. This is very dangerous for the kids on the roads as well as elders. Many senior citizens go for morning walks and due to the fog; they are unable to

see clearly. They can fall anytime into the hole. Even the stray animals are facing the same danger. Last week, a puppy nearly fell into the hole but a person was there to rescue at the time. It is very difficult for the residents of the locality to live under a risk like this.

I hope the issue will be highlighted in your esteemed daily to raise concern to the authority about the everyday issue and bring upon a solution.

Yours truly,

X.Y.Z.

- A thrilling 20-20 cricket match.
- A traffic jam.

A thrilling 20-20 cricket match.

To:

**The Principal Government Shalimar Post Graduate College,
Lahore.**

From: College Student.

Subject: A thrilling 20-20 cricket match.

Date: May 9th, 2022.

Introduction: This report is about a thrilling 20-20 cricket match of our college team and opponent team. This report is based on facts and figures.

Text / Report: A 20-20 cricket match was organized between Shalimar College Science College. The match was taken place at our college ground. The day started with the players' introduction. We won the toss and decided to let the guest team bat first. We got the wickets of the opening batsmen Ali & Kamran by the very first over. The team of Science College lost their hope for the match by losing these two crucial wickets of their best opening

partnership. Much too all their surprise, the new player Jawad Ahmad on the team scored 100 runs for 60 balls next. The supporters of Science College went crazy each time he swung his bat. They shouted and encouraged him to play better. However, this joy was not long-lived. Our team's bowler Shahzad took Jawad's wicket at 113.

The players who followed Jawad collectively managed to score around 80 runs. By the end of the match, Science College had set a target of 190 runs. Our opening partnership of Nabeel and Ahsan scored a collective 90 for 60 balls. Then Nabeel has bowled by opponent team bowler Fahad Mirza. The opening partnership has broken. Then new batsman Khalid comes into the crease. He made a good partnership of 40 runs with the opener Ahsan in 30 balls. Now 60 runs had remained in just 5 overs (30 balls). Science College gave ball to their attacking bowler Faisal and he got a hat-trick in 16th over and over ends in a maiden. Shalimar College team was in trouble, because they had lost their 4 wickets now they needed 60 runs in just 4 overs (24 balls). Then attacking right-handed batsman of Shalimar College Usman comes into the crease. He played aggressively and made 40 runs in just 3 overs with his partner Sajid. Now 20 runs required in the last over. The attacking bowler of opponent team Faisal came to bowl last over. This match was thrilling. In the

last over Faisal came to bowl and Usman hit 3 consecutive sixes in a row. Now 2 runs required on 3 balls. On 4th ball of final over Faisal got the crucial wicket of Usman. Usman played a superb innings of 58 runs in just 22 balls. Shalimar College needed 2 runs on 2 balls with 5 wickets left. The batsman no 7 Bilal comes into the crease. Faisal came to bowl second last ball of match and Bilal took a single run. Now 1 run is required on final ball of match. This match has been very excited. Faisal came to bowl final ball of match, and Batsman Sajid played a wonderful cover-drive on the off-side and the ball clears the boundary rope. Team Shalimar won the match by 5 wickets.

Conclusion: In the presentation ceremony, we won a monetary prize of Rs.5000 along with the winners' trophy. Certificates were distributed to the opposition team. Man of the match award goes to Usman for his outstanding batting in very critical condition.

Suggestions: I request the principal that there should be such sports activities. So that students can also show interest in extracurricular activities. Sports activities are also very important for the mental development of students.

A traffic jam.

To:

Traffic Police Punjab,

Lahore.

From: Report Writer.

Subject: A traffic jam.

Date: May 9th, 2022.

Introduction: This report is about a traffic jam in city town. This report is based on facts and figures.

Text / Report: Even a kid these days knows about the traffic congestion on road. There is not even a single city on earth today that is undisturbed. With the transformation of lifestyle people are now occupied 24x7. Nobody wants to reach late to school, to miss college class, to get late on their way to the office, to get their salary deducted, to cut it short people are involved in a life race. Who touches the door first wins, who reaches last, well, gets their salary deducted.

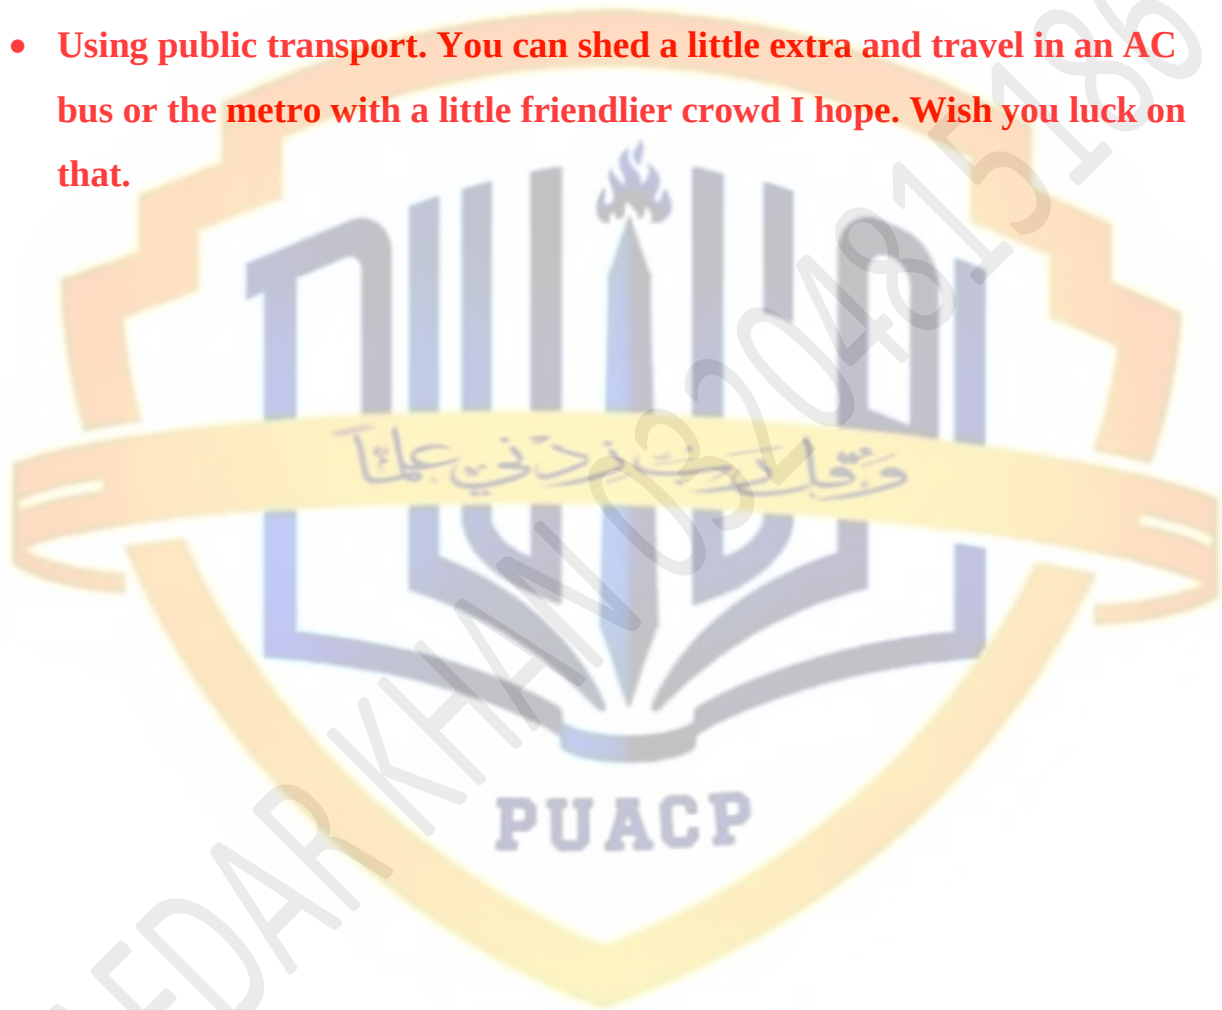

Although, the traffic condition of my area is the worst. It becomes unbearable especially during the start time of schools, colleges and universities. This happens when different vehicles, especially auto-rickshaws, want to advance in front of each other.

Street conditions and violations of traffic rules are other causes of the country's traffic jams. People, especially students and service carriers, feel helpless and frustrated when they get stuck in a traffic jam. Many people fail to get to their desks on time.

Conclusion: The worst victims are patients who have been transported in ambulances to hospitals and clinics. Rickshaw drivers also struggle a lot because they lose their valuable time moving very slowly towards their destination.

Suggestions: To avoid this traffic there are a number of ways. But no one's interested in finding them out. To lessen the burden on your head I'm jotting down the easiest one's.

- **Carpooling.** All you got to do is drop your kids off to school or your spouse to work instead of letting them drive themselves in a separate vehicle.
- **Switching to 2 wheelers.** Scooters, bikes and bicycles are more compact and light. They're basic machinery and don't result in a lot of traffic.
- **Using public transport.** You can shed a little extra and travel in an AC bus or the metro with a little friendlier crowd I hope. Wish you luck on that.

Q: 3 Write a letter to the editor of a newspaper about a problem that the people of your area face.

A: 3

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jang,

Lahore.

Subject: Problem that people of your area face.

Dear Sir,

Through the columns of your esteemed newspaper, I'd like to raise awareness regarding attacks on the elderly. Physically, the elderly are often frail. As a result, they can't defeat the rogues in the muscle battle, who usually come to pillage them.

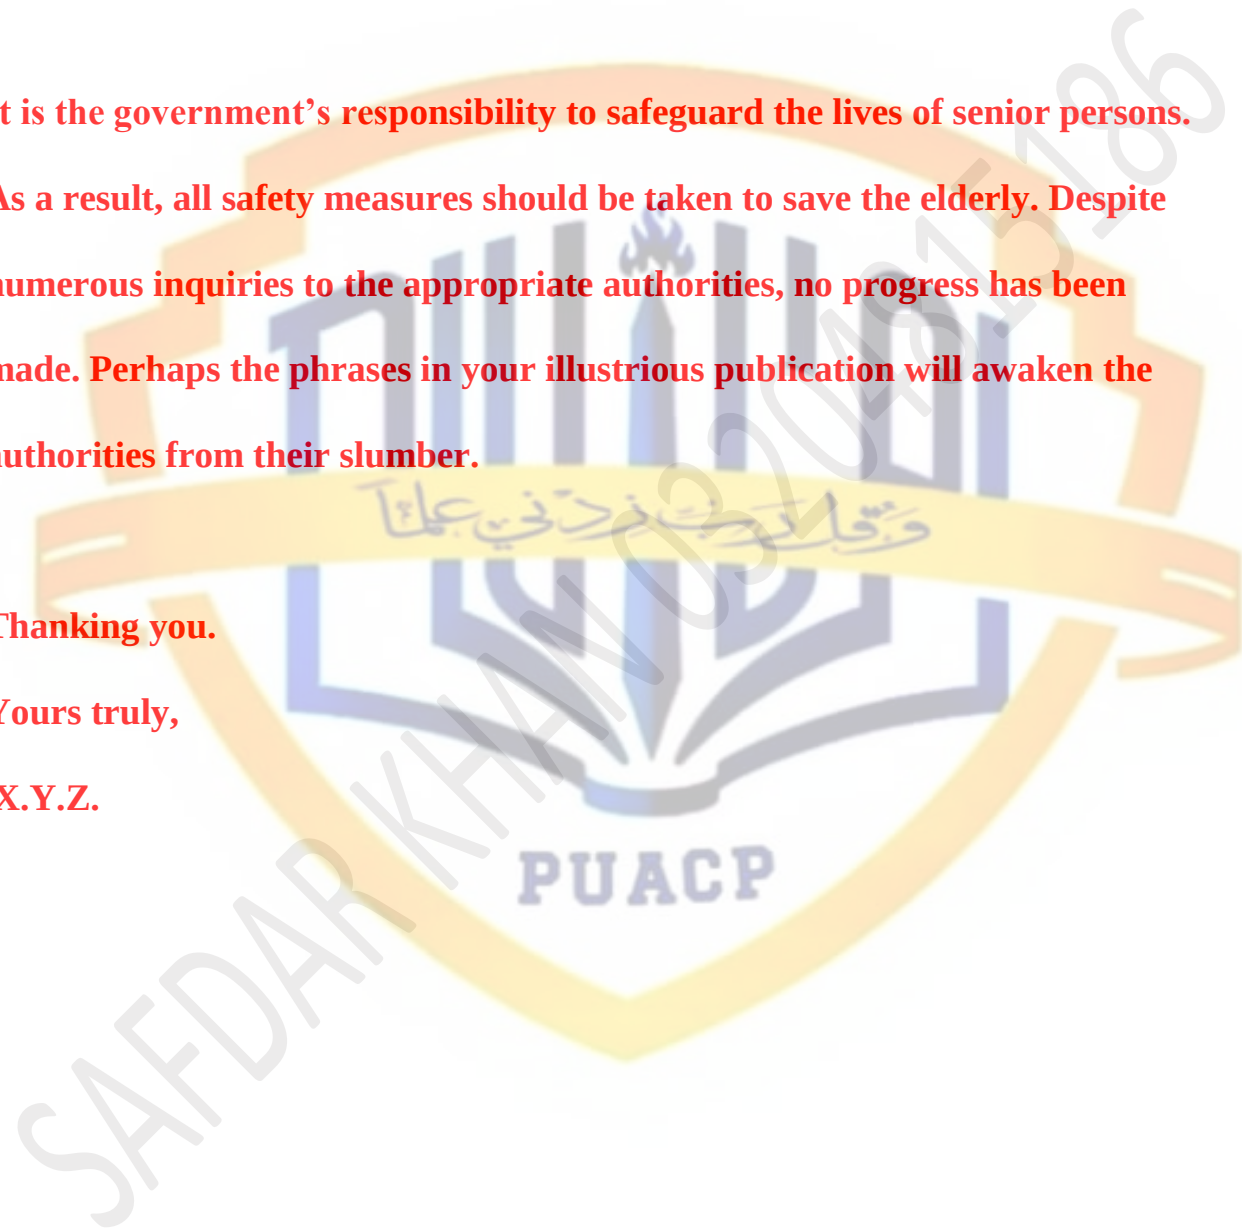

Any pushback from the elderly can be dangerous to their health. Many incidences of theft, snatching, and horrific attacks on the elderly have already occurred in our area.

It is the government's responsibility to safeguard the lives of senior persons. As a result, all safety measures should be taken to save the elderly. Despite numerous inquiries to the appropriate authorities, no progress has been made. Perhaps the phrases in your illustrious publication will awaken the authorities from their slumber.

Thanking you.

Yours truly,

X.Y.Z.

Q: 2 Write a short report on any one of the following topics.

1. Cleanliness of College Premises.

2. Visit to Moga Mall.

Cleanliness of College Premises.

To:

The Principal,

Government Shalimar Post Graduate College.

Lahore.

From: College Students.

Subject: Cleanliness of college Premises.

Date: May 9th, 2022.

Introduction: This report is about cleanliness of college premises. This report is based on facts and figures.

Text / Report: Our College had organized the cleanliness program in college premises. It was successfully organized with the combined efforts of the students, staff and teachers collectively. The students and faculty were

segregated into various groups who took up charge to clean various parts of the college. Halls, auditoriums and classrooms were swept and dusted. The gardens and playgrounds were cleaned. Many new saplings were also planted by the members.

Conclusion: After this successful program, our college students pledged that they would always take care of the cleanliness of their college from today onwards.

Suggestions: We request the college principal that such programs should be held on a monthly basis so that the college is free from filth. And we should make our students aware of all things related to cleanliness.

Visit to Moga Hall.

To:

The Manager,

Moga Mall.

Lahore.

From: Visitor.

Subject: Visit to Moga Mall.

Date: May 9th, 2022.

Introduction: This report is about is about visit of Moga Mall. This report is based on facts and figures.

Text / Report: A shopping mall is a place where everything is available under one roof. Shopping mall gives us shopping with comfort. On last Sunday I visited a shopping mall with my mother and cousin nearby my home. It is known as Moga Mall.

There were many different sections in the shopping mall. Every section has its crowd of customers. The first section had shops selling house hold things and grocery. Mother shopped enthusiastically for monthly rations. She bought many things like soaps, pulses and spices. My cousin and I bought some food items.

The second section had cloth shops for children, ladies and gentlemen. We visited some artificial jewelry shops, cosmetic item shops and footwear shops in that section too. The jewelry shops decorated very attractive. My cousin bought a pair of shoes for him.

The third section had shops of electronic items like refrigerator, air conditioners and washing machines. Ever we saw some music and video shops. There were some furniture shops too. This section had many shops of stationary too. We visited many sweet and snacks shops and enjoy refreshment there. In Moga mall, there is a game zone for kids. The game zone was full of kids as it is a vacation time. We enjoyed playing games in a game zone too.

Conclusion: The shopping mall was very big but it was clean. To visit a shopping mall was a new and exciting experience for me. Visiting shopping mall is very enjoyable for me. As it provides change from daily repetitive schedule work. We enjoyed a lot by visiting and bought the things of our need from there.

Suggestions:

- Turn your mall into an entertainment hub. You need an incentive to attract customers into your mall and to spend time there.
- Hold community events.
- Wi-Fi hot spots.
- Rent space to unconventional tenants.
- Mixed-use malls.
- Measure mall traffic.

Q: 3 Write a letter Editor of a Newspaper about rehabilitation of flood victims?

A: 3

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jang,

Lahore.

Subject: Rehabilitation of flood victims.

Dear Sir,

I have just returned from a tour of the flood-affected area in KPK, where unprecedented havoc and destruction have taken place.

No doubt people are already familiar with the terrible tragedy that has overtaken KPK, but the account of an eye witness will bring home to the people with all the greater effect the terrible distress which these disastrous floods have caused: In some places whole villages have been swept away and

the crops over a large area destroyed. Thousands of villagers have been rendered destitute, most of them have nothing but the clothes in which they managed to escape somehow. They are living in temporary shelters expose to all the inclemency of the weather, without proper food and clothes.

The government is no doubt doing all it can to relieve the immediate distress, but unless public funds are raised and people make liberal contributions it is not possible to rehabilitate the flood-affected victims. When the floods subside, villages will have to be rebuilt and the villagers will have to be supplied with seed, fodder, cattle and farm implements before they can start work again.

I, therefore, strongly appeal to the people to help the government in the humanitarian task of relieving the distress of the poor sufferers by contributing generously to the KPK Flood Relief Fund and thus earn the gratitude of their distressed fellow brethren.

Yours truly,

X.Y.Z.

1. Motivational Lectures.

2. Annual Prize Distribution Ceremony.

Motivational Lectures.

To:

The Principal,

Government Shalimar Post Graduate College.

Lahore.

From: College Students.

Subject: Motivational Lectures.

Date: May 9th, 2022.

Introduction: This report is about motivational lectures. This report is based on facts and figures.

Text / Report: I am writing this report to talk about the last week seminar of motivational lectures held by our college. Last week a seminar on Motivational Lectures was held in our college. The seminar was attended by various Motivational Lecturers. They were related to different fields of life. They all gave speeches on various topics of life. And tell students how you can achieve success in your life.

Conclusion: In this seminar, our college teachers also expressed their views. This series of speeches lasted for about three hours and then ended. At the end of the ceremony, the principal of our college presented prizes to the speakers.

Suggestions: I request the principal that such programs should be held. And men as well as women should be invited to these programs. As far as holding is concerned, seating arrangements should be reviewed at the place where the event was held.

Annual Prize Distribution Ceremony.

To:

The Principal,

Government Shalimar Post Graduate College.

Lahore.

From: College Students.

Subject: Annual Prize Distribution Ceremony.

Date: May 9th, 2022.

Introduction: This report is about annual prize distribution ceremony held by our college. This report is based on facts and figures.

Report / Text: The Annual Prize Distribution Ceremony was commemorated on the 10th of August on our college premises. The event was managed under the guidance of the honorable Principal.

Our Vice-principal lit a lamp to mark the beginning of the auspicious day. He also delivered a short speech emphasizing the overall performance of the college in both academics as well as curricular.

Our college premises and gardens were kept neat and clean and were beautifully adorned by flower garlands, glittery papers and chandeliers. All the teachers, staff members, students and their guardians were cordially invited to join the program. The program began at 9:00 hours.

Conclusion: Various sweets, snacks and beverages were served among the guests. Prizes, awards, trophies and certificates for all the events, workshops and competitions organized throughout the academic year 2019-2020 were felicitated by the chief guest among the students who had involved themselves in various activities with great passion and enthusiasm.

Suggestions: I request the principal to organize more competitions next time so that more students can participate in them. And such programs must be held. It encourages students.

Q: 3 Write a letter to Inspector General Police about deteriorating Law and Order situation in your area?

A: 3

Examination Hall,

City A.B.C.

May 9th, 2022.

Inspector General Police,

Police Station Harbanspura,

Lahore.

Subject: Deteriorating law and order situation in your area.

Dear Sir,

I beg to draw your kind attention towards the most deteriorating law and order situation in this area. This colony has been turned into a hell by a group of naughty persons.

They roam here and there in the street and pass filthy remarks on the passers-by. Even the girls and the ladies find it impossible to go alone in this area.

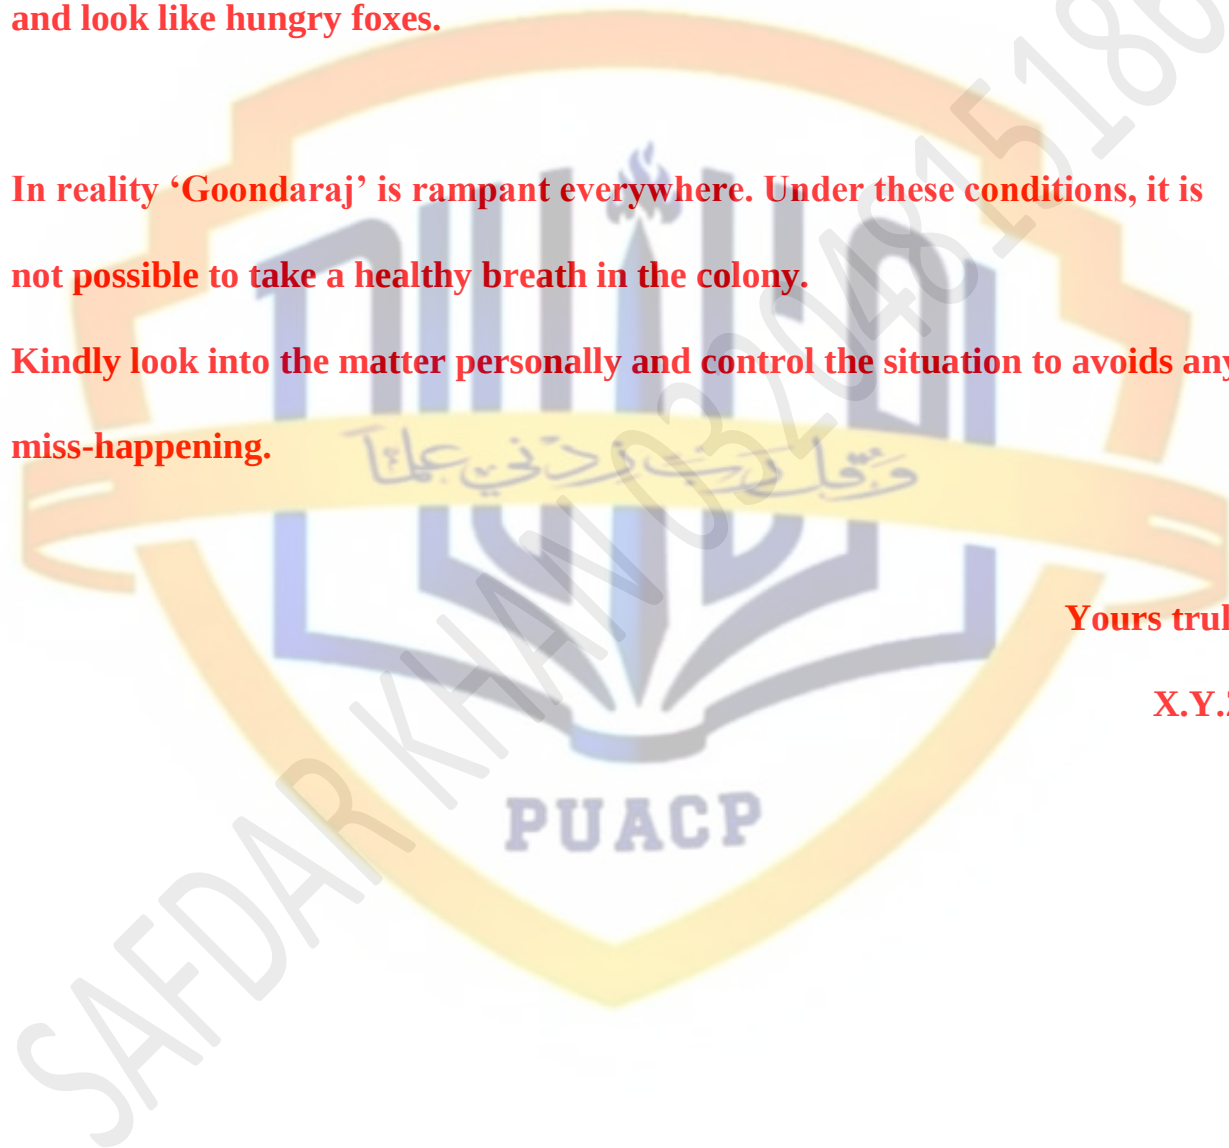

They have the fair of chain snatching and kidnapping also. During the days, the bad characters, gamble in the park and take wine. They lose their senses and look like hungry foxes.

In reality 'Goondaraj' is rampant everywhere. Under these conditions, it is not possible to take a healthy breath in the colony.

Kindly look into the matter personally and control the situation to avoids any miss-happening.

Yours truly,

X.Y.Z.

Past Paper 2019

Q: 1 Write long answers to the following questions?

Q: 1 Write a short report on any one of the following topics.

- 1. Electricity crisis in Pakistan.**
- 2. The consequences of rapid population growth in Pakistan.**

Electricity crisis in Pakistan.

To:

WAPDA Officer,

WAPDA Town.

Lahore.

From: Report writer.

Subject: Electricity crisis in Pakistan.

Date: May 9th, 2022.

Introduction: This report is about electricity crisis in Pakistan. This report is based on facts and figures.

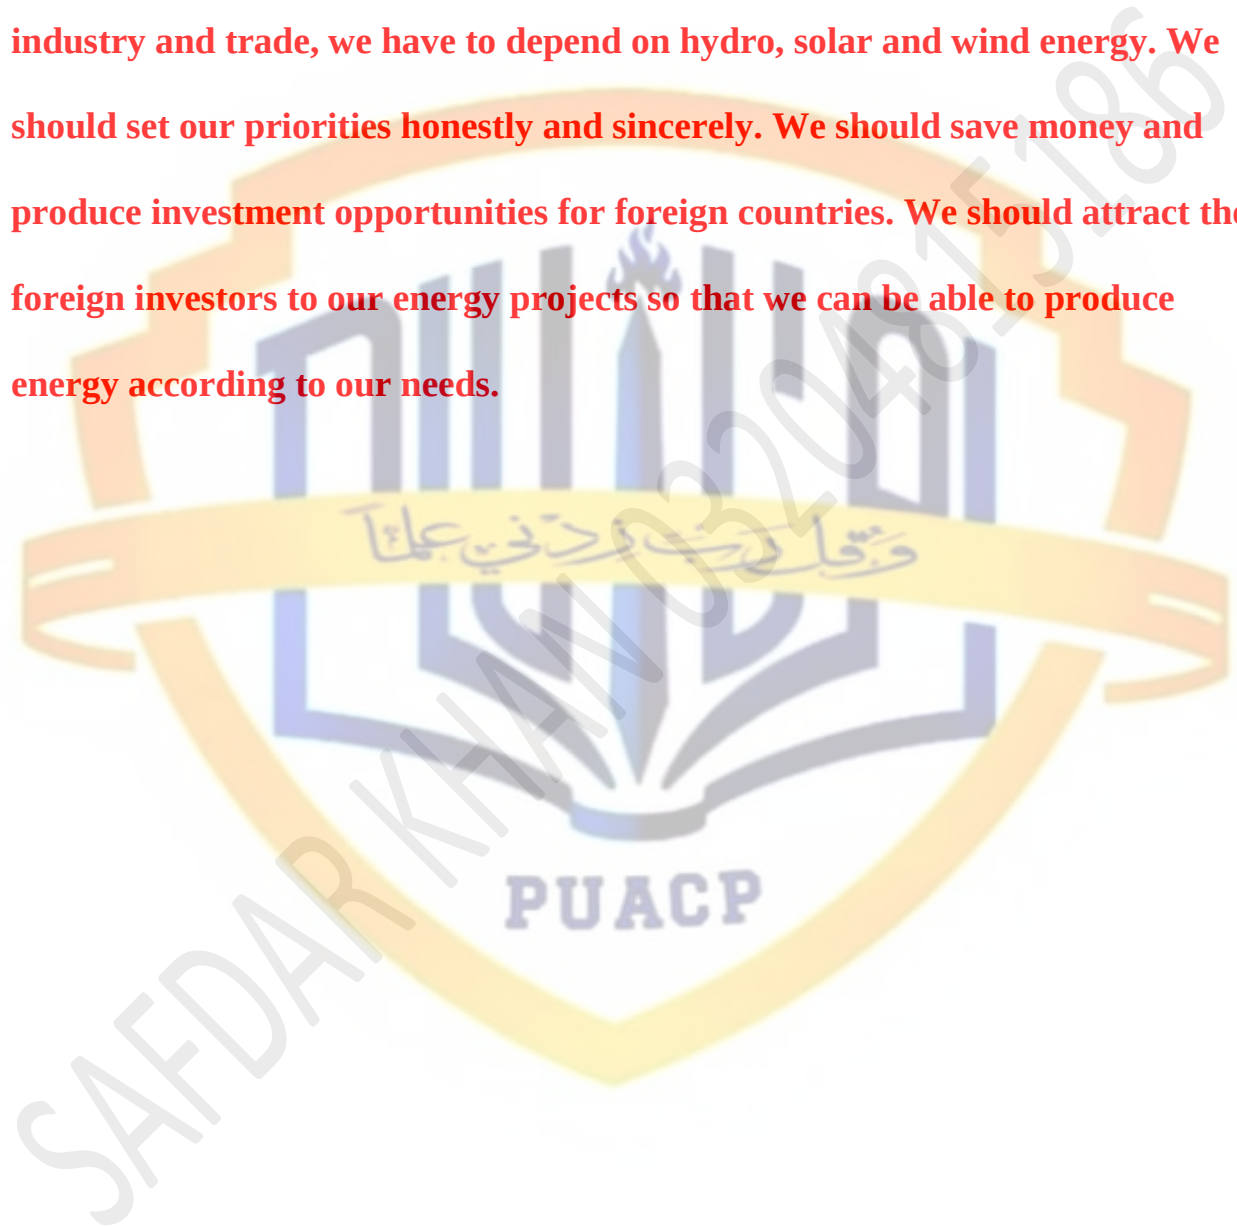

Text / Report: The Electricity Crisis of Pakistan is due to the reason that there is a lack of management and lack of foresight by the government of Pakistan. It is also due to the reason that there is a lack of responsibility and awareness among the citizens of the country.

All the resources that are available to Pakistan are way too out of reach as they are simply too expensive or already acquired by some other country which has planned their electricity consumption. Pakistan has failed to find sufficient amount of energy resources as it had delayed in making better decisions and planning the electricity consumption of the country.

Conclusion: Power theft is also a very big problem in Pakistan as the most popular Kunda system is being used to steal electricity. If the government takes certain steps to completely remove the transmission of electricity through wrong methods it would be able to save at least 25% of its electric power.

Suggestions: We should stress the governments to change their priorities.

They should establish cheap and durable power projects instead of expensive projects. If we want to get rid of load shedding and provide electricity to industry and trade, we have to depend on hydro, solar and wind energy. We should set our priorities honestly and sincerely. We should save money and produce investment opportunities for foreign countries. We should attract the foreign investors to our energy projects so that we can be able to produce energy according to our needs.

The consequences of rapid population growth in Pakistan.

To:

**Population Welfare Department,
Islamabad.**

From: Report writer.

Subject: The consequences of rapid population growth in Pakistan.

Date: May 9th, 2022.

Introduction: This report is about the consequences of rapid population growth in Pakistan. This report is based on facts and figures.

Text / Report: Pakistan is the sixth by virtue of its population size. This colossal population and galloping population growth rate consumes most of financial and natural resources and leaves little for development. The population growth is a challenge posed to Pakistan economy as it increases expenditures on health, education infrastructure and basic provisions of life. It also depletes natural resources, food, water etc. Development is the center

of all economic activities. However, development alone is futile when it does not bring positive change in the lives of masses. Different studies have shown that population growth negatively affects development process. In the backdrop of Pakistan, this situation has been worsened as the problem was never given due attention and gravity of the problem with its multi-dimensional facets has become very complicated. Despite limited possible government efforts, the fertility rate has not decreased to the stabilized population growth rate at desirable level.

Conclusion: The huge population size deprived of health care, education and employment facilities are a titanic load over the poorly managed economy growing at snail pace. The empirical analysis done in this thesis supports the hypothesis, that population growth is negatively related to factors involved in sustainable economic development.

Suggestions: The government should take necessary and meaningful steps to control the growing population. Government should promote family planning for reduction of population. The government should launch an awareness campaign to educate the people about population growth and its problems.

Q: 2 Write a letter to the Editor of a Newspaper discussing the contemporary issues of Pakistan?

A: 2

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jung,

Lahore.

Subject: Contemporary issues of Pakistan.

Dear Sir,

Our country Pakistan is facing many issues. Below we will mention the current & contemporary issues of Pakistan.

Among the recent issues facing our country are poverty, unemployment, terrorism, corruption, lawlessness, alcoholism, load shedding, water scarcity, population growth, food shortages, inflation and so on.

All these issues can be an obstacle to the development of any country.

Therefore, the government should take immediate steps to solve all these issues so that our country is on the path of development.

Thanks for your kind consideration.

Yours truly,

X.Y.Z.

Illegal immigration of Afghan refugees to Pakistan has been a significant issue for both countries. This report aims to shed light on the causes, challenges, and potential solutions related to this complex situation.

Report/Text:

1. Historical Context: Provide a brief overview of the historical relationship between Afghanistan and Pakistan, including the influx of Afghan refugees due to conflicts and political instability in Afghanistan.

2. **Causes of Illegal Immigration:** Discuss the factors that contribute to the illegal immigration of Afghan refugees, such as ongoing conflict, economic challenges, lack of opportunities, and security concerns in Afghanistan.

3. **Challenges Faced:** Highlight the challenges faced by both the Afghan refugees and the Pakistani government. This may include strained resources, social integration issues, and security implications.

4. **Government Policies:** Analyze the policies implemented by the Pakistani government to address the issue, such as registration processes, repatriation programs, and border management strategies.

5. **Humanitarian Efforts:** Discuss the role of international organizations, NGOs, and humanitarian agencies in providing assistance and support to Afghan refugees in Pakistan.

Suggestions:

1. **Enhanced Cooperation:** Emphasize the need for increased cooperation between Afghanistan and Pakistan to address the root causes of migration and develop joint strategies for managing the issue.

2. Sustainable Solutions: Advocate for long-term solutions that focus on improving conditions in Afghanistan, such as promoting peace, stability, and economic development, to discourage illegal immigration.

3. International Support: Highlight the importance of international support in providing financial aid, resources, and technical assistance to both Afghanistan and Pakistan to manage the refugee crisis effectively.

Conclusions:

Summarize the main points discussed in the report, emphasizing the need for comprehensive and collaborative efforts to address the challenges posed by illegal immigration of Afghan refugees to Pakistan. Recognize the humanitarian aspect of the issue and the importance of protecting the rights and well-being of Afghan refugees while ensuring the security and stability of both countries.

PUACP

Socio-economic problems of Pakistan.

To:

**Pakistan Bureau of Statistics (PBS),
Islamabad.**

From: Report writer.

Subject: Socio-economic problems of Pakistan.

Date: May 9th, 2022.

Introduction:

Pakistan faces various socio-economic challenges that impact its development. These issues include poverty, unemployment, inequality, corruption, and inadequate access to education and healthcare.

Report / Text:

1. Poverty: A significant percentage of the population lives below the poverty line, struggling to meet their basic needs. This leads to food insecurity, lack of proper housing, and limited access to education and healthcare.

2. **Unemployment**: High unemployment rates contribute to economic instability and hinder social progress. The lack of job opportunities affects the youth and leads to frustration and social unrest.

3. **Inequality**: Pakistan struggles with income inequality, with a significant wealth gap between the rich and the poor. This disparity creates social divisions and limits equal opportunities for all citizens.

4. **Corruption**: Corruption is a major challenge in Pakistan, affecting governance, public services, and the business environment. It hampers economic growth and undermines trust in institutions.

5. **Education and Healthcare**: Limited access to quality education and healthcare services further exacerbates socio-economic problems. Many children are out of school, and healthcare facilities are inadequate, particularly in rural areas.

Suggestions:

1. **Poverty Alleviation**: Implementing effective poverty reduction programs, such as social safety nets, skill development initiatives, and microfinance, can help uplift the disadvantaged population.

2. **Job Creation:** Encouraging entrepreneurship, promoting investment in key sectors, and improving vocational training can generate employment opportunities and reduce unemployment.

3. **Addressing Inequality:** Implementing progressive taxation policies, promoting inclusive economic growth, and providing equal access to education and healthcare can help reduce inequality.

4. **Anti-Corruption Measures:** Strengthening anti-corruption institutions, promoting transparency, and ensuring accountability can help combat corruption and improve governance.

5. **Improving Education and Healthcare:** Increasing investment in education and healthcare infrastructure, enhancing teacher training, and expanding access to quality services can improve socio-economic outcomes.

Conclusions:

Addressing the socio-economic problems of Pakistan requires a comprehensive approach involving government policies, private sector engagement, and community participation. By tackling these challenges, Pakistan can pave the way for a more inclusive and prosperous society.

Q: 3 Write a letter to the Editor of a Newspaper discussing the contemporary issue air pollution in Lahore (smog).

A: 3

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jung,

Lahore.

Subject: Urgent Action Needed to Address Air Pollution in Lahore.

Dear Sir,

I am writing to express my deep concern about the alarming levels of air pollution, particularly the persistent smog, in Lahore. This issue poses significant health risks and has severe consequences for the environment and the overall well-being of the residents.

Firstly, the smog in Lahore is primarily caused by a combination of factors, including industrial emissions, vehicular pollution, and the burning of crop residues. These pollutants, trapped by weather conditions, create a thick haze

that engulfs the city, leading to reduced visibility, respiratory problems, and a general decline in the quality of life.

The health implications of this smog are grave. The high levels of particulate matter and toxic gases in the air can cause respiratory illnesses, aggravate existing conditions such as asthma, and even lead to long-term health complications. It is especially concerning for vulnerable groups such as children, the elderly, and those with pre-existing respiratory conditions.

To address this issue, immediate action is required. Here are a few suggestions:

1. **Strict Industrial Regulations:** Enforce stricter regulations on industrial emissions, ensuring that industries comply with environmental standards and invest in cleaner technologies.
2. **Improved Public Transportation:** Encourage the use of public transportation and promote the adoption of electric vehicles to reduce vehicular emissions.
3. **Crop Residue Management:** Implement effective strategies to manage crop residue, such as promoting alternative uses like biomass energy production or providing subsidies for farmers to adopt sustainable practices.

4. Awareness and Education: Launch public awareness campaigns to educate citizens about the harmful effects of air pollution and the importance of individual actions in reducing pollution levels.

5. Green Spaces and Afforestation: Increase the number of green spaces in the city and undertake afforestation initiatives to improve air quality and create healthier environments.

In conclusion, the issue of air pollution, specifically smog, in Lahore demands urgent attention. It is crucial for the government, citizens, and relevant stakeholders to work together to implement effective measures to mitigate pollution levels and safeguard the health and well-being of the residents.

Yours truly,

X.Y.Z.

Q: 2 Write a short report on any one of the following topic:

- i. Covid-19 in Pakistan.**
- ii. Online Education.**

Covid-19 in Pakistan.

To:

**MINISTRY OF NATIONAL HEALTH SERVICES REGULATIONS
AND COORDINATION**

Islamabad.

From: Report writer.

Subject: Covid-19 in Pakistan.

Date: May 9th, 2022.

Introduction:

COVID-19, also known as the novel coronavirus, has had a significant impact on Pakistan. Since its emergence in late 2019, the virus has spread across the globe, affecting millions of people. Pakistan has not been immune to this crisis, with a growing number of cases and the need for effective measures to control the spread.

Report / Text:

The first case of COVID-19 in Pakistan was reported in February 2020, and since then, the number of confirmed cases has continued to rise. The virus has affected all provinces and regions, with major cities like Lahore, Karachi, and Islamabad experiencing high infection rates.

The government of Pakistan, in collaboration with health authorities, has taken several steps to combat the spread of the virus. These include implementing lockdowns, promoting social distancing measures, conducting widespread testing, and establishing quarantine centers. Additionally, public awareness campaigns have been launched to educate citizens about preventive measures such as wearing masks, practicing good hand hygiene, and avoiding large gatherings.

Despite these efforts, challenges remain. Pakistan faces issues such as limited healthcare infrastructure, a large population, and socioeconomic disparities that make it difficult to control the spread effectively. The healthcare system has been under strain, with shortages of medical equipment and healthcare professionals.

Suggestions:

To address these challenges, it is crucial to take further steps. Here are some suggestions:

1. **Strengthen Healthcare Infrastructure:** Invest in improving healthcare infrastructure, including the availability of hospitals, medical equipment, and trained healthcare professionals.
2. **Enhance Testing and Contact Tracing:** Increase the capacity for testing and contact tracing to identify and isolate infected individuals promptly.
3. **Vaccine Distribution:** Ensure efficient and equitable distribution of COVID-19 vaccines to reach all segments of the population.
4. **Public Awareness:** Continue public awareness campaigns to educate citizens about preventive measures and the importance of vaccination.
5. **International Cooperation:** Collaborate with international organizations and neighboring countries to share knowledge, resources, and best practices for combating the virus.

Conclusions:

In conclusion, COVID-19 has had a significant impact on Pakistan, with increasing cases and challenges in controlling the spread. However, with proactive measures, strengthened healthcare infrastructure, and public cooperation, the country can overcome these challenges and mitigate the impact of the virus. It is crucial for all stakeholders, including the government, healthcare professionals, and citizens, to work together.

Online Education.

To:

**Ministry of Federal Education and Professional Training,
Islamabad.**

From: Report writer.

Subject: Covid-19 in Pakistan.

Date: May 9th, 2022.

Introduction:

Online education has become increasingly prevalent in recent years, and its importance has been further highlighted by the global COVID-19 pandemic. With the shift to remote learning, online education has become the primary mode of instruction for many students across the world.

Report / Text:

Online education refers to the delivery of educational content and instruction through digital platforms and technologies. It offers flexibility, accessibility, and a wide range of learning opportunities. Students can access educational resources, participate in virtual classrooms, and interact with teachers and peers from the comfort of their own homes.

The COVID-19 pandemic has accelerated the adoption of online education, as schools and universities have had to adapt to social distancing measures. This mode of learning has enabled educational institutions to continue providing instruction and support to students, despite physical limitations.

Online education comes with several advantages. It allows students to learn at their own pace, provides access to a vast array of educational resources, and offers flexibility in terms of scheduling. Additionally, it promotes digital literacy and prepares students for the evolving demands of the modern workforce.

However, there are challenges associated with online education. Not all students have equal access to technology and internet connectivity, which can create disparities in learning opportunities. Additionally, some students may struggle with self-discipline and motivation in a remote learning environment.

Suggestions:

To make online education more effective, here are some suggestions:

1. **Access and Connectivity:** Ensure that all students have access to the necessary technology and reliable internet connectivity to participate in online learning.

2. **Teacher Training**: Provide comprehensive training and support for teachers to effectively deliver online instruction and engage students in virtual classrooms.

3. **Interactive Learning**: Incorporate interactive elements such as live discussions, virtual labs, and multimedia content to enhance student engagement and learning outcomes.

4. **Support Systems**: Establish support systems to address the social and emotional needs of students in an online learning environment, including counseling services and peer support networks.

5. **Assessment and Feedback**: Develop effective methods for assessing student progress and providing timely feedback to ensure continuous learning and improvement.

Conclusions:

Online education has become a vital component of the educational landscape, particularly in times of crisis. While it offers numerous benefits, there are challenges that need to be addressed to ensure equitable access and quality learning experiences for all students. By implementing the suggested measures and continuously improving online learning strategies, we can harness.

Q: 3 Write a letter to the Editor of a Newspaper discussing the problem of unemployment in the developing world?

A: 3

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jung,

Lahore.

Subject: Addressing the Issue of Unemployment in the Developing World.

Dear Sir,

I am writing to express my concern about the pressing issue of unemployment in the developing world. This problem has far-reaching consequences for individuals, communities, and economies, and it deserves our attention.

In many developing countries, high unemployment rates pose significant challenges, particularly for young people entering the job market. The lack of job opportunities often leads to frustration, social unrest, and economic

instability. It is crucial that we address this issue and work towards sustainable solutions.

One of the main causes of unemployment in the developing world is the mismatch between the skills possessed by job seekers and the demands of the labor market. To tackle this, we need to prioritize investment in education and vocational training programs. By equipping individuals with the necessary skills and knowledge, we can enhance their employability and bridge the skills gap.

Furthermore, it is essential to foster an environment that encourages entrepreneurship and supports small and medium-sized enterprises (SMEs). These businesses play a vital role in job creation and economic growth. Governments and policymakers should implement policies that promote entrepreneurship, provide access to capital, and simplify bureaucratic procedures, enabling SMEs to thrive.

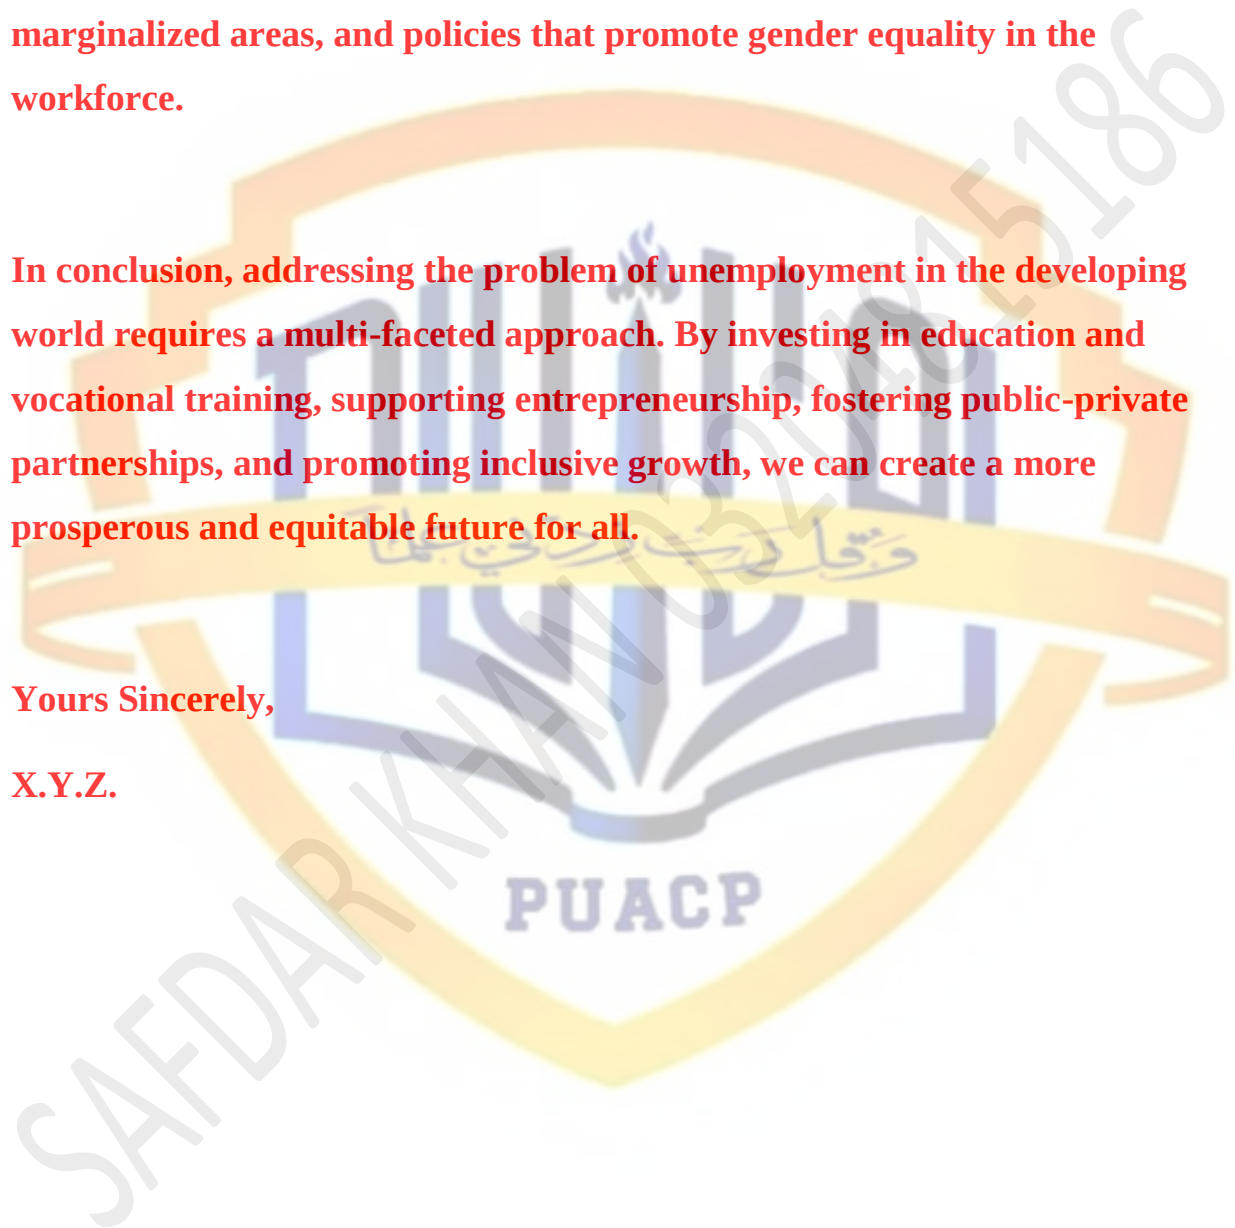

Additionally, collaboration between the public and private sectors is crucial in addressing unemployment. Governments should create an enabling environment for businesses to flourish, while also ensuring fair labor practices and protecting workers' rights. Public-private partnerships can help create job opportunities through infrastructure development, investment in key sectors, and initiatives that promote innovation and technological advancements.

Moreover, there is a need to focus on inclusive economic growth. Efforts should be made to reduce income inequality and provide equal opportunities for all members of society. This can be achieved through targeted social protection programs, investment in infrastructure development in marginalized areas, and policies that promote gender equality in the workforce.

In conclusion, addressing the problem of unemployment in the developing world requires a multi-faceted approach. By investing in education and vocational training, supporting entrepreneurship, fostering public-private partnerships, and promoting inclusive growth, we can create a more prosperous and equitable future for all.

Yours Sincerely,

X.Y.Z.

Past Paper 2022

Q: 1 Answer the following questions?

Q: 1 Write a report on the quality of food served in the cafeteria of your institute?

A: 1

To:

**The Principal Government Shalimar Post-Graduate College,
Lahore.**

From: Report writer.

Subject: Quality of food served in the cafeteria of your institute.

Date: May 9th, 2022.

Introduction:

The purpose of this report is to assess the quality of food served in the cafeteria of our institute. The cafeteria plays a crucial role in providing nourishment and satisfaction to students, faculty, and staff. It is important to evaluate the food quality to ensure the well-being and overall satisfaction of the institute community.

Report / Text:

During the evaluation period, several aspects of the food served in the cafeteria were considered. The taste, freshness, variety, nutritional value, and overall dining experience were taken into account.

In terms of taste, the food generally met the expectations of the institute community. The flavors were well-balanced, and the dishes were seasoned appropriately. However, there were a few instances where certain dishes lacked flavor or were overly seasoned, which affected the overall dining experience.

Freshness is a crucial factor in determining the quality of food. The cafeteria generally provided fresh ingredients, especially in salads and fruits. However, there were a few instances where certain items appeared to be less fresh, which could be improved to maintain consistency.

Variety is essential to cater to the diverse preferences and dietary needs of the institute community. The cafeteria offered a decent variety of dishes, including vegetarian and non-vegetarian options. However, it would be beneficial to introduce more international cuisines and incorporate seasonal ingredients to enhance the dining experience.

Nutritional value is a significant consideration, especially for students and staff who rely on the cafeteria for their daily meals. The cafeteria made efforts

to provide balanced meals, including a variety of proteins, carbohydrates, and vegetables. However, there is room for improvement in terms of offering healthier alternatives and clearly labeling nutritional information.

Suggestions:

Based on the evaluation, the following suggestions are recommended to improve the quality of food in the cafeteria:

1. Enhance consistency in taste by regularly monitoring the seasoning of dishes.
2. Ensure consistent freshness of ingredients by improving inventory management and rotation practices.
3. Introduce a wider variety of international cuisines and seasonal dishes to cater to diverse preferences.
4. Increase the availability of healthier options and provide clear nutritional information to promote informed choices.

Conclusions:

Overall, the quality of food served in the cafeteria of our institute is satisfactory. While there were areas for improvement, such as consistency in taste and freshness, efforts were made to provide a variety of dishes and balanced meals. By implementing the suggested improvements, the cafeteria can further enhance the dining experience and meet the diverse needs of the institute.

Q: 2 Write a letter to the newspaper editor about the difference in the mediums of education that is causing trouble in society?

A: 2

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jung,

Lahore.

Subject: Difference in the mediums of education that is causing trouble in society.

Dear Sir,

I am writing to express my concern about the impact of the difference in mediums of education on our society. In recent years, the divide between traditional classroom-based education and online learning has become more apparent, leading to various challenges and issues.

One of the main troubles arising from this difference is the unequal access to education. While traditional classroom-based education remains the predominant form, the increasing reliance on online learning platforms has left many individuals, particularly those from disadvantaged backgrounds, without proper access to quality education. This digital divide exacerbates existing inequalities and hampers social mobility.

Furthermore, the difference in mediums of education has also resulted in a lack of social interaction and collaboration among students. Traditional classroom-based education promotes face-to-face interaction, group discussions, and teamwork, which are crucial for the development of interpersonal skills and the ability to work effectively in a team. Online learning, on the other hand, often lacks these opportunities, leading to potential challenges in the social and professional lives of individuals.

Another issue is the potential disparity in the quality of education. While some online learning platforms provide excellent resources and opportunities for self-paced learning, others may fall short in terms of content quality and instructional support. This discrepancy in quality can lead to a fragmented educational experience, with some students receiving a comprehensive education while others struggle to access adequate resources and guidance.

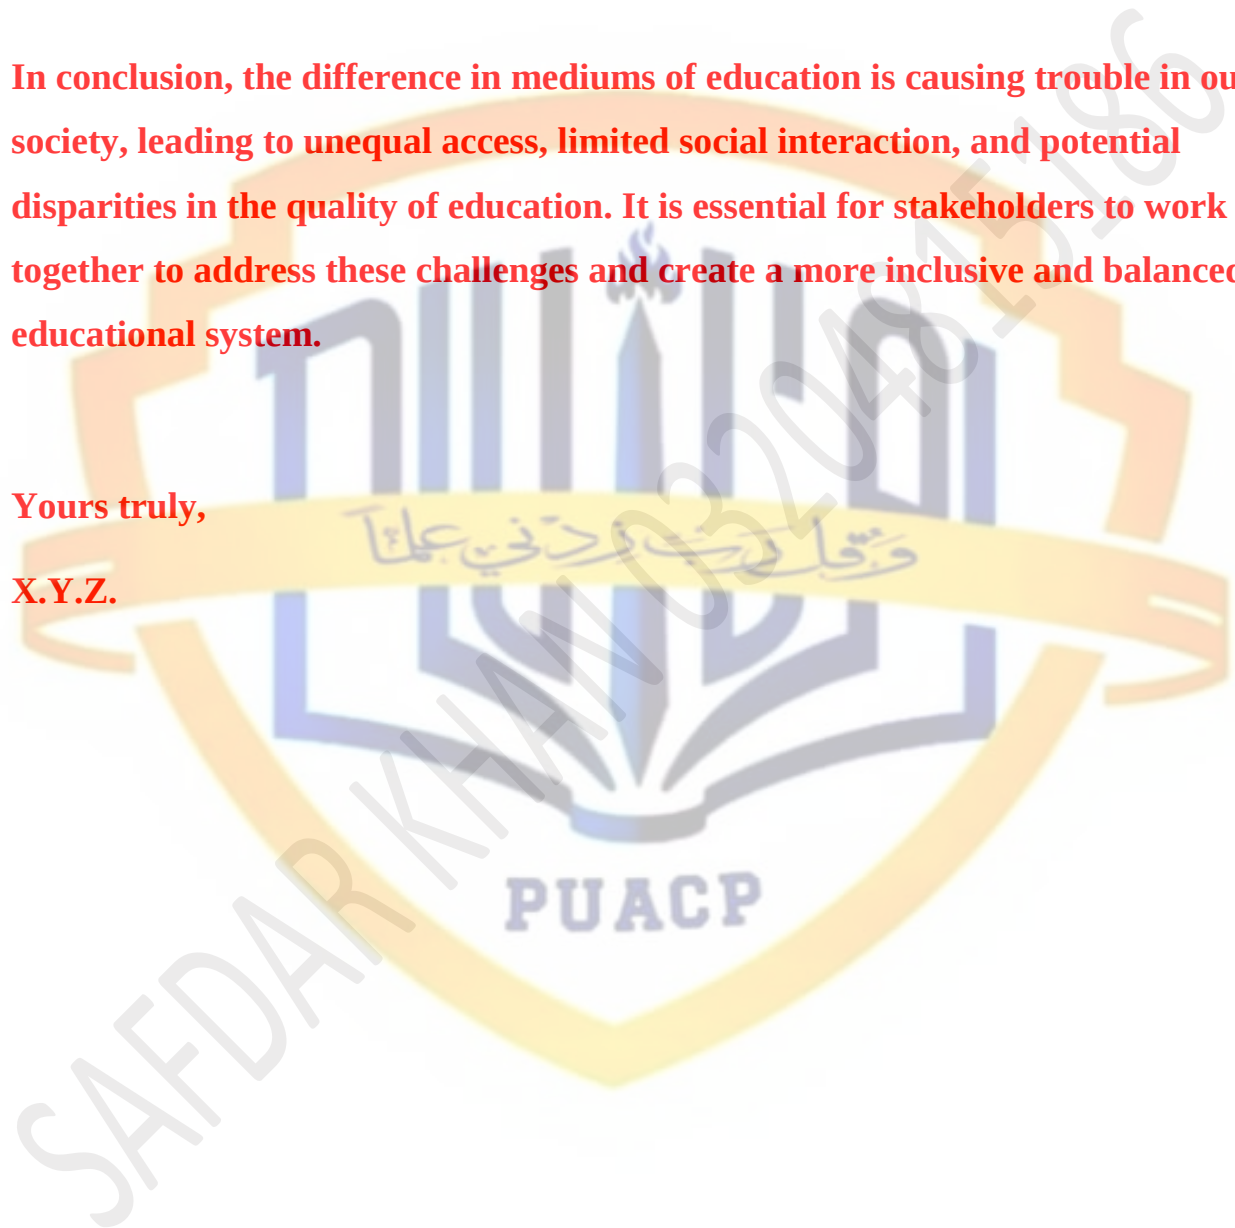

To address these challenges, it is crucial for educational institutions and policymakers to bridge the gap between the different mediums of education. Efforts should be made to ensure equal access to quality education for all

individuals, regardless of their socioeconomic backgrounds. Additionally, a balance between online and offline learning should be struck, incorporating the benefits of both mediums to provide a holistic educational experience.

In conclusion, the difference in mediums of education is causing trouble in our society, leading to unequal access, limited social interaction, and potential disparities in the quality of education. It is essential for stakeholders to work together to address these challenges and create a more inclusive and balanced educational system.

Yours truly,

X.Y.Z.

Past Paper 2023

Q: 1 Answer the following questions?

Q: 1 Write a report about the havoc caused by Dengue in your vicinity?

A: 1

To:

Environment Protection Department,

Lahore.

From: Report writer.

Subject: Havoc caused by Dengue in your vicinity.

Date: May 9th, 2022.

Introduction:

Dengue, a mosquito-borne viral infection, has become a significant concern in our vicinity. In recent years, the number of dengue cases has been on the rise, causing widespread health issues and posing a threat to our community's well-being.

Report / Text:

The impact of dengue fever has been severe, affecting individuals of all ages. The symptoms range from mild flu-like symptoms to severe complications that can be life-threatening. The mosquito responsible for transmitting the virus, *Aedes aegypti*, thrives in stagnant water and can breed in even the smallest water containers, making it difficult to control.

The rise in dengue cases has put a strain on our healthcare system, with hospitals and clinics dealing with an influx of patients. The financial burden on affected families is also significant, as medical expenses can be overwhelming. Moreover, the spread of dengue has disrupted daily life, with individuals being forced to take precautionary measures to avoid mosquito bites.

Suggestions:

To combat the havoc caused by dengue, it is crucial for the community, local authorities, and individuals to work together. Here are some suggestions:

- 1. Raise awareness:** Conduct awareness campaigns to educate the community about dengue prevention, symptoms, and the importance of early diagnosis and treatment.

2. **Eliminate breeding sites:** Encourage regular inspection and elimination of stagnant water sources in and around homes, schools, and public areas to prevent mosquito breeding.

3. **Mosquito control measures:** Implement effective mosquito control measures such as fogging, spraying insecticides, and using mosquito nets to reduce the mosquito population.

4. **Community involvement:** Encourage community participation in clean-up drives and maintaining clean surroundings to minimize the breeding grounds for mosquitoes.

5. **Collaboration with healthcare providers:** Strengthen collaboration between healthcare providers, local authorities, and community organizations to ensure timely diagnosis, treatment, and surveillance of dengue cases.

Conclusions:

In conclusion, the havoc caused by dengue in our vicinity demands immediate attention and collective action. By raising awareness, eliminating breeding sites, implementing mosquito control measures, fostering community involvement, and strengthening collaboration, we can effectively combat the spread of dengue and mitigate its impact on our community's health and well-being.

Q: 2 Write a letter to the newspaper editor about the pathetic condition of roads in your area?

A: 2

Examination Hall,

City A.B.C.

May 9th, 2022.

The Editor,

The Daily Jung,

Lahore.

Subject: The pathetic condition of roads in your area.

Dear Sir,

I am writing to bring attention to the deplorable state of roads in our area. The condition of the roads has reached a point where it is causing immense inconvenience and posing a threat to the safety of residents.

The roads are riddled with potholes, cracks, and uneven surfaces. This not only makes commuting a nightmare but also leads to frequent accidents and damage to vehicles. Pedestrians are also at risk due to the lack of proper footpaths and streetlights.

The poor road conditions have a significant impact on our daily lives. It affects our productivity, increases travel time, and causes unnecessary stress. Additionally, it hampers the overall development and attractiveness of our area, discouraging potential investors and hindering economic growth.

It is imperative that immediate action is taken to address this issue. I urge the concerned authorities to allocate resources for the repair and maintenance of our roads. Regular inspections, timely repairs, and proper planning for future infrastructure projects are essential to ensure a smooth and safe transportation network.

I also request the support and cooperation of fellow residents in raising awareness about this matter. Together, we can amplify our voices and put pressure on the authorities to prioritize the improvement of our roads.

I hope that by highlighting this issue, our community can come together to bring about positive change. Let's make our area a better place to live, work, and thrive.

Yours sincerely,

X.Y.Z.

Q: 3 Write an application to the head of institution where you are working, requesting him to transfer you to another city. State the reason behind this request?

A: 3

**To,
The Head of Institution,
Lahore.**

Subject: Request for Transfer to Another City.

Dear Sir,

I hope this letter finds you in good health and high spirits. I am writing to formally request a transfer to Sialkot for personal reasons.

The reason behind this request is that my family has recently relocated to Sialkot due to unavoidable circumstances. As a result, it has become increasingly challenging for me to maintain a healthy work-life balance and fulfill my responsibilities effectively.

By transferring to Sialkot, I will be able to be closer to my family and provide them with the necessary support and care. This will not only enhance my personal well-being but also enable me to perform my professional duties with renewed dedication and focus.

I understand that transferring to another city may require adjustments and considerations, both for the institution and myself. I assure you that I am fully committed to ensuring a smooth transition and will diligently fulfill my duties in the new location.

I kindly request your understanding and support in considering my transfer request. I am confident that with your guidance and approval, this transfer will enable me to continue contributing to the institution's success while maintaining a harmonious work-life balance.

Yours sincerely,

X.Y.Z.
